

I would hope you will uphold the Indiana's Telephone Privacy law, because I do not want to have my bank or anyone able to call when ever they want. If a bank has business with me about my account then they can already call. If they want to advertise let them send it or give it to me when I go there. I wish therwe was a way to stop junk mail and spam, it would stop a lot of waste, of money and time. They could also have patrons sign waivers if they need to contact them that bad, it would give the public a choice.

Thank You

Tim
